## Emails

# Email safety day – Tuesday 21<sup>st</sup> April

Our focus today was how to use email safely. We learnt about spam email and phishing. In groups, we discussed scenarios where someone was unsure what they should do. We thought of advice for them.

Tuesday 21<sup>st</sup> April

WALT stay safe when using email

AGREE BUILD CHALLENGE

What can be attached to an email?

What did people do before email was invented?

Who can you send an email to?

Who in this room uses email? Why?

Sender – Do I recognise them?

Ask – Does it ask for personal info or passwords?

Feel – Does it make me worried, rushed or excited?

Explain – Would this make sense for them to email me?

## WILFS:

I can explain what an email is

I can discuss the advantages and disadvantages of using email

I can identify if an email looks suspicious

I can give advice for different scenarios

I have learnt that what ever looks fun, real don't believe it.  
Lucas.

spam email is when a random person sends you dangerous links  
Patricia

I think the emailing to some one is un safe because you could get Scam!  
Thank you! From, Seha
